### Zahra Guard Crack License Key Full Free Download

Latest News Webcam Monitor shows you and others what happens at your home with Zahra Guard Download With Full Crack Zahra Guard is a program that comes in handy to all those who want to use their webcam or other video device for surveillance and motion detection. Zahra Guard allows you to know what happens to you or others at your house. With Zahra Guard you can: Know who visits your home, and view on-line any possible intruders. Set motion detection settings and get notified when the alarm is triggered. View your pics on the web. Solve audio problems. Protect your privacy. How Zahra Guard Works: • Set the working hours of the application. The only thing you have to do is to select the hours on which you will work and any other time is excluded. • Choose the channel. There are already on-line channels on which you can monitor the status of your camera without buying any additional hardware. The application will scan all the devices and, if the required channel is available, it will be used instead of the webcam connected to the computer. • Now you can select the days and times you want to know what happens at your house. You can specify the hours, the minutes or the seconds and any other specific time is excluded. • The application runs in the background. There is no need for additional programs. • If you want to monitor your camera every few seconds you can use the time intervals feature. • The application records video in a

separate folder to prevent you from wasting time by searching for stuff. Any video file in the folder is deleted after thirty days. • With the new Zahra Guard version you can view the pictures you are watching and know when the alarm is raised. • The program has a new video broadcasting feature that allows you to publish the video recorded by your webcam directly online. Zahra Guard Features:

- A comprehensive and handy monitoring program that works with any webcam or video device. •
- Includes a web broadcasting feature that enables you to view your pictures on the web. •
- An in-built video recording feature that allows you to know what happens at your house. •
- In-built time intervals feature that allows you to set a time interval on which your camera will be activated and then deactivated. •
- The application includes a new broadcast feature that allows you to publish
