A: You can't make a ScrollView programmatically. It is made in an XML layout, and you cannot make a layout programmatically. So you have to add the layout that contains a ScrollView programmatically. Q: How to perform per-pixel "stacking" in ImapSharp? I have an IMAP folder with hundreds of thousands of mails, and I need to keep fetching only messages that are new, and only after I read and delete messages from the store, is it okay to do a fast fetching of such messages. So, I want to "perform a stack" of the mailbox with a dummy IMAP
